PROFILE

Enthusiastic Front-End Developer with hands-on experience building modern, responsive web applications using Vue.js, Nuxt.js, JavaScript, HTML, CSS, and Tailwind CSS. Skilled in component-based architecture, state management, REST API integration, responsive web design, and creating reusable UI components. Experienced with modern front-end development practices and currently learning React.js to expand expertise in component-based development and modern JavaScript frameworks. Passionate about clean UI, interactive user experiences, performance optimization, and writing maintainable code. Currently seeking a Front-End Developer, Junior Front-End Developer, or Front-End Development Training opportunity.

SKILLS

Languages: HTML, CSS, JavaScript
Frameworks and Libraries: React.js, Vue.js, Nuxt.js, GSAP
CSS Frameworks: Bootstrap, Tailwind CSS
Tools and Version Control: Git, GitHub
Additional Skills: REST API, Axios, Responsive Design, Component-Based Architecture, State Management (Pinia), Figma to HTML/CSS

EXPERIENCE

Front-End Developer Intern, Neop *December 2025 - February 2026*

- Developed and maintained responsive web interfaces during a 3-month front-end developer internship.
- Collaborated with the team to build reusable UI components using Vue.js.
- Applied version control best practices using Git and GitHub.

PROJECTS

Egypt Real Estate – Dashboard *(Vue.js)*

- Developed a modern real estate management dashboard with a responsive, user-friendly interface.
- Built reusable, scalable Vue.js components and managed state efficiently with Pinia.
- Implemented multilingual support (Vue i18n) and smooth animations using GSAP.
- Created interactive charts and analytics dashboards using Chart.js.
- Implemented client-side routing with Vue Router; used Git/GitHub for version control.

Technologies: Vue.js, GSAP, Tailwind CSS, Pinia, Vue Router, Vue i18n, Chart.js, Iconify, Git, GitHub

Egypt Real Estate – Website *(Vue.js)*

- Built a modern, responsive real estate website with a clean, user-friendly interface.
- Developed reusable Vue.js components and managed application state with Pinia.
- Implemented Arabic/English multilingual support using Vue i18n.
- Created smooth GSAP animations and interactive Chart.js data visualizations.
- Handled navigation with Vue Router; styled the UI with Tailwind CSS and Iconify icons.

Technologies: Vue.js, GSAP, Tailwind CSS, Pinia, Vue Router, Vue i18n, Chart.js, Iconify

Slimedo - Doctor Consultation *(Vue.js)*

- Developed a responsive healthcare dashboard focused on usability and performance.
- Built reusable UI components and optimized layouts for multiple screen sizes.
- Designed and implemented data visualization features using Chart.js.

Technologies: Vue.js, Tailwind CSS, Chart.js, Git, GitHub

E-Commerce Cars *(Vanilla JavaScript)*

- Developed a responsive e-commerce website for car listings and sales.
- Built dynamic, interactive UI with vanilla JavaScript, including filtering and product display.
- Ensured cross-browser compatibility and mobile responsiveness.

Technologies: HTML, CSS, JavaScript, Git, GitHub

Kadi Beauty *(Vanilla JavaScript)*

A cosmetics e-commerce site built with native JavaScript with a clean, modern UI.

Personal Portfolio *(Nuxt.js)*

- Designed and developed a modern personal portfolio to showcase projects and skills.
- Created responsive, visually appealing layouts optimized for all devices using Three.js.
- Focused on performance, accessibility, and clean UI design.

Technologies: Nuxt.js, Tailwind CSS, CSS, Three.js, Git, GitHub

EDUCATION
