

Abdelrahiman Elkasby

Front-End Developer

Phone: +20 109 235 1655 | Email: abdoabdou1u5@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFILE

Enthusiastic Front-End Developer with hands-on experience building modern, responsive web applications using Vue.js, Nuxt.js, JavaScript, HTML, and CSS. Completed a front-end development training program and a front-end developer internship at Neop. Skilled in component-based architecture, state management, REST API integration, and responsive design. Passionate about clean UI, smooth animations, and delivering great user experiences. Currently seeking a front-end developer or junior developer training opportunity.

SKILLS

Languages: HTML, CSS, JavaScript

Frameworks and Libraries: React.js, Next.js, Vue.js, Nuxt.js, GSAP

CSS Frameworks: Bootstrap, Tailwind CSS

Tools and Version Control: Git, GitHub

Additional Skills: REST API, Axios, Responsive Design, Component-Based Architecture, State Management (Pinia), Figma to HTML/CSS

EXPERIENCE

Front-End Developer Intern, Neop

December 2025 - February 2026

- Developed and maintained responsive web interfaces during a 3-month front-end developer internship.
- Collaborated with the team to build reusable UI components using Vue.js.
- Applied version control best practices using Git and GitHub.

PROJECTS

[Egypt Real Estate](#) (Vue.js)

- Developed a modern real estate management dashboard with a responsive and user-friendly interface.
- Built reusable and scalable components using Vue.js.
- Implemented smooth animations and enhanced user experience with GSAP.
- Managed application state efficiently using Pinia.
- Added multilingual support using Vue i18n.
- Created interactive charts and analytics dashboards using Chart.js.
- Implemented client-side routing with Vue Router.
- Utilized Git and GitHub for version control and project management.

Technologies: Vue.js, GSAP, Tailwind CSS, Pinia, Vue Router, Vue i18n, Chart.js, Iconify, Git, GitHub

[Slimedo - Doctor Consultation](#) (Vue.js)

- Developed a responsive healthcare dashboard focused on usability and performance.
- Built reusable UI components and optimized layouts for multiple screen sizes.
- Designed and implemented data visualization features using Chart.js.
- Maintained clean and organized code using modern front-end development practices.

Technologies: Vue.js, Tailwind CSS, Chart.js, Git, GitHub

[E-Commerce Cars](#) (Vanilla JavaScript)

- Developed a responsive e-commerce website for car listings and sales.
- Built dynamic and interactive user interfaces using vanilla JavaScript.
- Implemented product display, filtering, and responsive layouts.
- Ensured cross-browser compatibility and mobile responsiveness.

Technologies: HTML, CSS, JavaScript, Git, GitHub

[Kadi Beauty](#) (Vanilla JavaScript)

A cosmetics e-commerce site built with native JavaScript with a clean, modern UI.

[Personal Portfolio](#) (Nuxt.js)

- Designed and developed a modern personal portfolio to showcase projects and skills.
- Created responsive and visually appealing layouts optimized for all devices.
- Integrated interactive 3D experiences using Three.js.
- Focused on performance, accessibility, and clean UI design.

Technologies: Nuxt.js, Tailwind CSS, CSS, Three.js, Git, GitHub
